

## ENTARON HD 2.5 Heavy Duty Air Cleaner for Outdoor Power

- ✓ Long Life
- ✓ Cost Effective
- ✓ Flexible Mounting

# MANN+HUMMEL ENTARON HD 2.5

## Heavy Duty Air Cleaner for Outdoor Power

### Product features and concept advantages

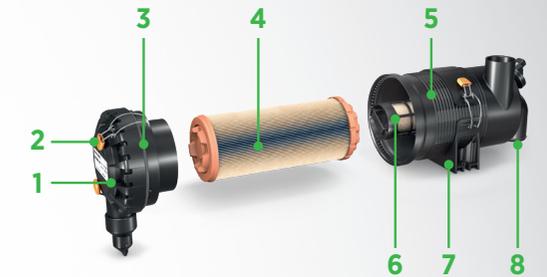

- Heavy Duty ready
- Best in class lab life
- Copy protected element to grow service business
- Ease of installation in existing packaging space
- Flexible mounting due to 360° rotation of outlet and EasyLatch bracket allowing inlet configuration options every 15°
- High strength outlet tube design for stability in severe stress applications
- Stable and robust element with chemical and water resistance

### Technical specification

	ENTARON HD 2.5	Donaldson FPG05
Air Flow Rating	2.77 m <sup>3</sup> /min (98 CFM)	2.63 m <sup>3</sup> /min (93 CFM)
Initial Restriction	25 mbar (10" H2O)	25 mbar (10" H2O)
Lab Life	4.2 hrs	3.1 hrs
Final Efficiency	99.99%	99.99%
Media Fiber Construction	Cellulose fibers 15 - 40 µm, Synthetic fibers 10 - 20 µm	Cellulose
Pre-cleaner Efficiency (integrated two-stage)	> 90%	> 85%
Bracket Mounting	10 mm through holes on 136 mm center or M8 threaded inserts on 99 mm center	8.9 mm through holes on 136 mm center
Outlet Tube Joint Strength	3236 Newtons	1618 Newtons

All tests according ISO 5011 using ISO coarse dust. Restriction measured at service indicator port with secondary element.

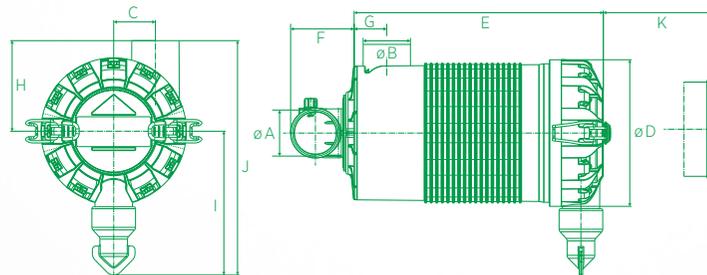

### Design features

- 1 Variable position cover with rotation prevention
- 2 Tool free service clips
- 3 Seal for water intrusion
- 4 High efficiency element with composite media
- 5 Housing with integrated pre-cleaner
- 6 Secondary element with key lock
- 7 EasyLatch bracket for ease of installation
- 8 360° rotating elbow outlet with 2 integrated M10 X 1 service indicator ports

### Dimensions [mm]

A	51	G	35
B	51	H	97
C	45	I	154
D	157	J	251
E	268.9	K	248
F	69		

### Applications

- Commercial Mowers
- Compact Tractors
- Generators
- Mini-Excavators
- Skid Steers
- Utility Vehicles
- Zero Turn Mowers
